Omid Ghamiloo
Data Science & Analytics

I'm hard work and trying to improve my career through the given tasks.
I may not know everything but I believe that you can google the solutions
for all problems, but you need to know how to do it and my experiences can
prove it. So, I try to do my best to learn and foster myself to grow in my
position. I just need to love it. All the skills which are in this CV are my
position. I also give credit to teamwork, so I try to be the best on that.
You can find my data. analysis and web scraping projects on my github.
